

TSM Psychodrama for Personal Restoration, Renewal & Cultural Connection

10 – 15 February 2019

"I think it is essential sometimes to retreat, to stop everything that you have been doing, to stop your beliefs and experiences completely, and look at them anew. You would then let fresh air into your mind, wouldn't you? If you can do so, you would be open to the mysteries of nature and to things that are whispering about us, which you would not otherwise reach." J. Krishnamurti

These retreats combine 30+ hours of psychodrama with diverse cultural adventures on the mystical island of Bali in Indonesia, a place where the sacred and the mundane join together. Included will be a trip to the famous Tanah Lot Temple, one of the ten most photographed sites in the world. Free time for exploration and relaxation is also included. Participants will receive a certificate to document psychodrama hours, which may be used toward certification by the American Board of Examiners, the Korean Psychodrama Association, The North American Drama Therapy Association, and Therapeutic Spiral International.
